

List of parts :

Booser_box_eda_01 and 02 for the box

There is a variation of box_eda_02 if you mount to the mobo with the powercell (see powercell variations)

Nipple_flat.stl (or any variation of your choice)

Booster_tube_01 to 02

PPD

Ion_arm_01 to 02 (see before printing the variation you need)

Gluing the 3 parts is still advised.

you may need to sand the hole for the booster tube to fit. don't mix the hole for the ladder with the hole to fix the tube to the box.

You will need 2 X 10mm m3 screws as register point for the ppd

3 x 15mm m3 screws to fix the two boxes

2 x 15mm m5 socket head cap screws fo fix ion_arm_02 to 01.

5 X 20mm m3 screws for the rest and the resistors
